Portfolio

Education

Vedam School of Technology

B.Tech in Computer Science & Engineering (Artificial Intelligence)

2025 – Present

Pune, Maharashtra

Experience

Motif

Co-Founder & CTO

Nov. 2025 – Apr. 2026

Pune, Maharashtra

- Co-founded and led development of an AI-powered platform helping founders validate ideas, develop pitches, and connect with relevant VC opportunities.
- Built multi-role workflows for founders, VCs, admins, and super admins including authentication, startup submissions, approvals, VC requests, and notifications.
- Developed AI workflows for idea analysis, market and competition evaluation, startup scoring, and pitch generation using LLM APIs.
- Engineered the platform using React, TypeScript, Vite, Tailwind CSS, Framer Motion, Supabase PostgreSQL, and authentication services.

FixKaru

Founder & Product Builder

Jun. 2026 – Present

Pune, Maharashtra

- Founded and developed a doorstep smartphone repair venture focused on convenient, transparent, and customer-first repair services.
- Designed the service model around doorstep repair, upfront pricing, customer approval, post-service payment, quality parts, and warranty-backed repairs.
- Defined the product, brand strategy, customer experience, and operational workflow while developing the digital product and customer acquisition strategy.

Projects

Digital Life Dashboard | JavaScript, Supabase, PostgreSQL, Chart.js

- Built a productivity platform combining task management, habit tracking, expenses, budgeting, goals, notes, expense splitting, and focus sessions.
- Implemented authentication, persistent data storage, and Row Level Security using Supabase and PostgreSQL, with Chart.js analytics for productivity and spending.

CampusDash | JavaScript, Supabase, HTML, CSS

- Built a campus-focused micro-commerce and instant-delivery platform for food, stationery, technology, medicines, and other campus essentials.
- Implemented Supabase authentication and database workflows, service-specific interfaces, and an in-app chatbot for multiple campus services.

Open Source Contributions

OpenSTEF

Open Source Contributor

2026

GitHub

- Merged documentation improvements covering issue templates, API terminology, and external resource structure in the OpenSTEF forecasting project.

PictoPy

Open Source Contributor

2026

AOSSIE

- Merged improvements to MkDocs documentation navigation, adding architecture, setup guides, and structured documentation for the project.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, SQL, HTML/CSS

Frontend: React, Tailwind CSS, Vite, Framer Motion

Backend: Node.js, Express.js, Spring Boot, REST APIs

Databases & AI: PostgreSQL, Supabase, MongoDB, MySQL, OpenAI API, Groq API, LLM Integration

Developer Tools: Git, GitHub, Docker, Postman, VS Code, Vercel, Render, Figma

Leadership / Extracurricular

Open Source Club

Vice President

Oct. 2025 – May 2026

Vedam School of Technology

Open Source Club
Outreach Head

Entrepreneurship Cell
Outreach Head

Feb. 2026 – May 2026
Vedam School of Technology

Feb. 2026 – May 2026
